

## ABOUT US

The European Chamber of Commerce in Korea (ECCK) is a distinguished association of European companies operating in or related to Korea. By registering with the Ministry of Trade, Industry, and Energy, the ECCK was officially founded as a non-profit, non-political organization.

Established with the blessings of the Delegation the European Union to the Republic of Korea and the European business community in Korea, the ECCK's primary objective is to provide our members with information, communication, and access pertaining to the business and regulatory environment of Korea. While European companies form the largest membership base of the organization, we welcome companies of all nationalities to join and to share our membership benefits.

## OUR SERVICES

### COMMITTEES & FORUMS

Committees and Forums are the centrepieces of ECCK activities. Comprised of participating member companies, Committees and Forums assist members to keep informed of regulations, improve market intelligence, and express positions on specific trade issues. Committees address industry-specific issues to Korean government counterparts. Meanwhile, Forums focus primarily on cross-industry topics, such as human resources, and are open to all members free of charge.

### EVENTS

The ECCK organizes conferences and seminars of industrial relevance for knowledge sharing. In particular, we are actively engaged in dialogues with government agencies to represent the European industries' concerns and issues. Furthermore, formal and informal networking events are hosted to encourage information exchange and business relationships. Finally, the ECCK functions as the first point of contact for European executives and officials coming to Korea.

### PUBLICATIONS

As a platform of communication, the ECCK circulates regular publications to inform our members of the current market situation, key regulatory issues, and notable social trends in Korea. In addition, we conduct surveys on the Korea business climate and interviews with industry experts. Major publications include:
