EUROPEAN CHAMBER OF
COMMERCE IN KOREA
주한유럽상공회의소

Dear Valued Members and Friends;

Undoubtedly, a proper training program is an integral and important part of professional development. Trainings allow employees the opportunity of development to become even a greater asset for their company; consistent growth leads to motivation and broader horizon. The same is of course true for executives: executives need to be kept up-to-date to enrich their skills and remain an excellent leader.

Available training programs in Korea are often conducted solely in Korean. As provide a solution for this dilemma, the ECCK has established the ECCK Academy where experienced professionals working with both Koreans and foreigners will provide trainings in both Korean and English.

The ECCK Academy is a training platform primarily for foreign and Korean employees of European companies operating in Korea, ranging from executives to regular employees. The ECCK Academy aims to become the platform for foreign employees of all levels who are either looking for trainings about how to manage a company successfully in Korea or just to simply keep their skills up-to-date while residing in Korea. In respect to Korean employees, the trainings serve as knowledge acquisition tool to better understand how Europeans manage companies and people. This way, an optimal working relationship may be reached for individual as well as corporate success.

The ECCK Academy is proud of having a wide range of qualified and renown trainers, coaches, and lecturers with different background and expertise. All trainings are organized by the ECCK and conducted for the most optimal learning experience. Furthermore, trainings can be directly booked by a company and be held at the company office.

I hope that with the ECCK Academy we will have a more structured approach to disseminate information about training possibilities and to reach more interested companies.

1. Adaptable Human Solutions

www.ahskorea.com

About the Company

With a vision of enriching lives and advancing organizations, services have always supported people across a broad spectrum of transitions. Whether simply wanting to live more optimally or coming from a place of challenges, the goal was to meet people in the complexity that comes with being human in simply partnering with them for greater success.

Fast forward 10 years and the goal remains the same and regardless of the platform or vehicle we utilize in delivering our services. We are passionate about the optimal functioning of everyone we work with. AHS has built a reputation of excellence in the field of counselling, cross cultural insight and coaching. These three fields are mutually complementary and can unlock excellence.

Our services have always been accessible to individuals but we also love it when companies are passionate about supporting their people and so we partner with them to provide for the people who ultimately make up and drive their organizations.

About the Program Director

Insatiably curious and always looking for “why”. I believe that all of the answers are out there – spread across different industries, cultures, teams and people. Leveraging a proven track record across 3 continents with the largest shipping conglomerate - the Maersk Group, I create spaces for these answers to emerge.

I encourage responsible risk taking and thrive in challenging environments – I enjoy creating and fostering networks through trust and mutual benefit. An energetic extrovert, I flourish in people centric positions and am at my most stimulated delivering through others. Be it in Leadership, Facilitation, Training or Coaching roles - I unlock potential.

We developed the exPat L.A.B¹ to deliver on this expectation – to assist in unlocking potential. Studies have shown that one on four expatriations fail². This program is intended to shift this reality – to develop culturally astute leaders who adapt to the context of the country in which they operate in. Our client companies understand that setting a leader up for success requires an investment in the cultural integration of the family unit moving to Korea, over simply the leader whose job has brought them to Korea. To support this the Expat L.A.B is structured such that the leader and the spouse will attend either the Launch or Accelerate module within a day of each other – this encourages discussion and shared realizations of cultural insights.

¹ Launch. Accelerate. Build

² Failure defined as early exit, not meeting performance expectations or leaving the company once the expatriation is complete.

5. Korea Associates Business Consultancy

<http://www.kabcltd.com/>

About the Company

Boutique consulting firm established in 1989 guided many Fortune 500 companies through the Asian Financial Crisis. We have since moved upscale providing discrete guidance and market analysis for companies wishing to enter Korea. 

We feel local subsidiaries in Korea have long been overlooked by Head Office despite Korea's status as a leading market for various goods. We work with CEO's to realize the true potential of their Korean operation, and ensure Head Office notices Korea, both as a leading market and strategic pincer into China.

About the Coach

Dr. Michell first came to Korea in 1980 and worked at the Economic Planning Board and Korea Development Institute alongside coworkers who eventually became heads of various Ministries. Before long, he was dispatched by the World Bank and UNDP on missions to the Middle East.

Dr. Michell was responsible for the first wave of FDI into N. Korea in the 1990's and created the successful pharmaceutical company 'Pyongsu' which produces modern medicine to this day.
