** At this meeting, we will have a discussion on the items or issues of ECCK White Paper 2016/2017 which is a position paper to Korean Government on the regulatory issues in each industry. As you may know, the White Paper is the Chamber's key lobbying document and is widely recognized by Korean and European governments, EU institutions, business associations and the media as the authoritative voice of EU business in Korea. It is used extensively for policy considerations, bilateral discussions, cooperation projects and background information. To listen to the committee members, I kindly ask your opinion and explanation on the business issues and concerns in Korea for better preparation of the White Paper as well as collecting topics for upcoming committee meetings.*

- Kindly inform us of your attendance by **April 14** to Ms. Hwonnarae Ha, Head of committee, via [RSVP link](#) or e-mail hwonnarae.ha@ecck.eu
