

2018 PwC Forum

New Era of Compliance and Forensics

Invitation Letter

Greetings,

The PwC Consulting Forensic Services team is delighted to cordially invite you to our “New Era of Compliance and Forensics” Forum, to be held in June 2018.

Stakeholders in Korea’s financial reporting, such as companies, supervisory authority and accounting firms are facing a major turning point, due to the revision of the Act on External Audit of Stock Companies at the end of 2017. In addition, the advancement of AI with the Fourth Industrial Revolution technologies is addressing the stakeholders’ challenge in its application throughout the industries.

In June 2018, the PwC Forensic Services Team will host the forum to introduce these newly revised regulations, and to share case examples in which these new technologies are being used.

We hope that this forum will enhance your understanding of regulation changes regarding financial reporting, and provide new insights into how we can apply these technologies to effectively cope with these changes. We kindly ask for your engagement and participation in the “New Era of Compliance and Forensics” Forum.

PwC Consulting
CEO **Han-Mog Lee**

Date June 19th 2018 (Tuesday) 13:00 ~ 17:10
