## SPEAKER

On February 20, 2018, Mr. Ban Ki-moon was unanimously elected as the President of the Assembly and Chair of the Council by the two respective governance organs of the Global Green Growth Institute. His leadership has been instrumental for the Institute to help its Members adopt the green growth – environmentally sustainable and socially inclusive – model of development.

Previously, he served two terms as the Eighth Secretary-General of the United Nations from 2007 to 2016. He successfully initiated global action to combat climate change that culminated in the adoption and rapid entry into force the landmark Paris Climate Change Agreement in 2016. He worked closely with member states to shape the 2030 Agenda for Sustainable Development and to establish UN Women, the latter of which advances global gender equality and women’s empowerment.

Prior to leading the UN, he was Minister of Foreign Affairs and Trade of the Republic of Korea. His 37-year career as a diplomat included, among others, postings in New Delhi, Washington D.C., and Vienna.

Mr. Ban holds a BA degree in International Relations from Seoul National University and MA degree in Public Administration from the Kennedy School of Government at Harvard University.
