

# ECCK Live Webinar on Economic Outlook 2021

## EVENT OUTLINE

2020 has been an unprecedented year for economies around the world, with significant decreases in GDP becoming the norm. Korea also could not escape a GDP decrease, with the OECD forecasting a -1.1% drop in 2020 (the smallest decline amongst all OECD member countries). While many economies are hoping for a V-shaped recovery, this may not be a given. During this seminar expert speakers will look at what economic growth can be expected in both Korea and the wider Asia region.
