

# ECCK Live Webinar on Class Action Act

## EVENT OUTLINE

Last year two bills were proposed that aim to create an expansive class action and punitive damages system. If adopted as expected, they will significantly alter Korea's litigation and risk management landscape. In order to inform our members of what has been proposed and to facilitate their preparation, ECCK will organize a dedicated webinar session with expert speaker to discuss the major takeaways and action items. The major portion of the session will be conducted in a fireside chat format, with plenty of opportunity to ask any questions participants may have.
