

ECCK E&E Live Webinar on Updates Renewable Energy Policy and Electricity Market

EVENT OUTLINE

Shortly after the declaration of the Korean Green New Deal, the government expressed its commitment to establish a system whereby businesses can purchase renewable energy so that the Korean RE100 Initiative can be fully launched.

During this webinar, Dr. Kim from Korea Energy Economics Institutes (KEEI) will introduce the Renewable Energy in Korea, as well as share the current status and outlook in RE, PV and Wind LCOE and RE policies corresponding to Green New Deal Policy. He will also touch on the future steps in RE for net-zero economy in Korea.

Following that Mr. Lee will explain all you need to know about the indirect PPA, direct PPA scheme (to be introduced soon), and how these can affect the future electricity market in Korea.

SPEAKER

Dr. Kihwan KIM
Research Fellow
Korea Energy Economics
Institute (KEEI)

Dr. Kihwan Kim joined the Renewable Energy research team at KEEI in 2016, afterwards he has studied in a broad range of areas within Korean renewable energy policy and forecasting, helping Korean government and companies improve their policy and business performance with economic analysis. At the public research institute, he has researched economic and social aspects of renewable energy. Among other studies, two reports on “The economic effects of renewable energy expansion,” has released since 2019. Before joining KEEI, he studied macro-economic forecasting in Rutgers University.

Mr. June LEE
Foreign Attorney
Kim & Chang LLC

Mr. Lee is a foreign attorney in the Environment, Health & Safety Practice as well as the Energy Practice at Kim & Chang. His practice mainly includes regulatory counseling and providing legal advice on transactional matters, with special focus on complex questions about the environmental & energy laws in Korea and the use of scientific information in law.
