

ECCK CFO Forum: Digital Transformation in Finance – case studies beyond the buzz words

EVENT OUTLINE

“A lot is being said about Digital Transformation these days. Similarly, Digital Transformation is the main lever for Finance to increase synergies on the one hand whilst providing the foundation for better business partnering on the other hand.

Building on the Digital Transformation session at the ECCK CFO Forum from March 17, 2021, Yan Uhl, CFO Korea and Representative Director of SAP and Torsten Berger, CFO & Vice President at Vitesco Technologies Korea will share their first-hand experience with Digital Finance Transformation.

Yan will kick off the discussion by depicting increased expectations towards finance. In a second step he will share details about the ongoing Digital Finance Transformation at SAP before focusing on the new role of the CFO and Finance in general. Torsten will then conclude by providing real-life examples from Vitesco here in Korea. He will also demonstrate how even from afar, a local subsidiary can trigger change on a headquarter level. We do look forward to your participation and a lively discussion.”

SPEAKER PROFILE

Yan P. Uhl
Chief Financial Officer, Korea
Representative Director
SAP

Yan joined SAP in 2010 as Director Financial Strategic Planning in Walldorf, Germany. In October 2013, he moved to Palo Alto, CA in the USA where he held senior finance positions in the areas of portfolio planning, M&A and financial planning and analysis. Effective October 1, 2017, Yan joined SAP Korea as Chief Financial Officer and Representative Director. As part of the Korean Senior Executive Team, Yan leads the Finance organization in Korea and supports the business by combining his business acumen with deep financial steering knowledge.

Torsten Berger
Chief Financial Officer,
Vitesco Technologies Korea

Torsten joined Continental in 2011 as a CFO of the joint venture Continental Automotive Systems in Korea. He was a major contributor in the spin-off execution of Continental's Powertrain division in Korea, which led to the establishment of Vitesco Technologies Korea. He is now working as Chief Financial Officer of Vitesco Technologies Korea since 2019.

Prior to joining Vitesco Technologies, he has worked as a Chief Financial Officer of Mann+Hummel Korea, where he helped to establish an affiliate and a brownfield plant. He also contributed to the acquisition and integration of medium-sized Korean Automotive supplier into the group organization.

He has served as a Chairperson of ECCK CFO Forum from 2015 to 2018.
