INNOVATION ACCELERATOR BOOTCAMP

PERSOLKELLY's 2021 innovative partnership with INSEAD – The Business School for the World introduces an Innovation Accelerator Bootcamp held virtually from the INSEAD Executive Education Centre.

The 10-hour virtual delivery Bootcamp is a series of webinars that will help business leaders learn lean innovation. Participants will learn through firsthand experience, with all the traps and tradeoffs characterising the launch of disruptive projects and get to choose the industry or topic they would like to work on.

ABOUT USING LIVECASE:

Every session will start with a teaching moment around a tool and mindset that will then be directly applied through the Horizon Ventures Accelerator LiveCase. You will be immersed as teams into a realistic scenario where you will lead an innovative project. Through an engaging simulation, learning is brought to life as you face and respond to the challenges in real life. For you, the experience is deeper and more meaningful, bridging the gap between theory and practice. We will conclude every session with a debrief and group discussion to make some key learnings emerge.

WHO SHOULD ATTEND?

The Innovation Accelerator Bootcamp is geared toward high potential individuals in business. In this context, “CEO” could just as well read “high impact leader”.

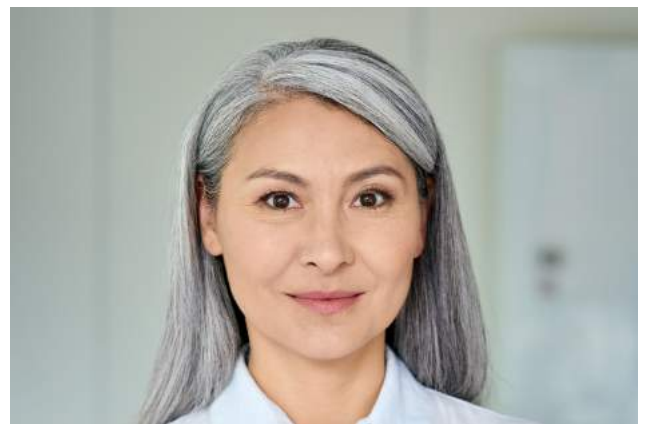

This program will benefit high impact leaders in the following industries and roles:

- For-profit business
- Nonprofit/social enterprise
- Government
- Small and medium business or enterprise
- Large multinational
