and Investment Agency

Hello, everyone!

We would like to invite you to **Saemangeum**, the center of Green Growth and New Industry! It's a land reclamation project. Basically, It's the idea of getting new land and making a global city with economy, industry, and leisure.

When you visit Saemangeum, you will look around the sea wall that was registered in the Guinness Book of World Records as the world's longest sea wall in 2010. It will also be a good time to learn about reclamation history, and technology.

Let us stop by the Gogunsan Islands, designated as one of the 33 most beautiful islands by CNN in 2017, and walk along the beach to feel the refreshing sea breeze!

By enjoying fun activities like zip-lines and K-POP concert, You can make new friends from various backgrounds, and share cultural differences.
