OSW Technology Day, an official side event of the ENVEX fair, is prioritizing clean energy and climate neutrality. It will showcase cutting-edge European expertise in offshore wind and green hydrogen, fostering collaboration for a sustainable future with Korea.

What to expect

- Technical solutions presented by leading European companies in offshore wind and green hydrogen.
- Q&A sessions and networking opportunities
- B2B opportunities on the sideline of the event
- Access to the ENVEX trade fair
- Lunch and a networking reception
